5. Snorkeling gear
6. Fishing tackle and bait
7. All cooking ingredients.

Tour Description:

This is a full day activity for a group size of not more than 5 persons for the price of \$600USD. We start off by meeting at the main dock here in Sarteneja and departing at 7:00 or 7:30am. Bacalar Chico is approximately 1.5 hours from Sarteneja. We stop at San Juan Ranger Station to pay the park entrances and also we take a look at a small museum that they have there. It's pretty awesome as they have information on how that place started with The Mayans. They also display some Mayan Artifacts that were found in that area. We then make our way through a lagoon into a Mayan Dug out channel which splits Mexican and Belizean waters. We then come out at the front side where the barrier reef is and our fishing and snorkeling takes place. We fish enough to eat on that day. We snorkel first at a coral area in the reef and we look for conchs and lobsters (only when they are in season). Second snorkeling takes place at barracuda patch. Then we move back on a sandy area to clean and cook your catch of the day and make some delicious ceviche while you all enjoy of some time swimming in a white sandy area. Once lunch is ready we eat and after all we make our way back at around 3:30-4:00pm. Reaching back at our dock around 5:30pm or maybe earlier depending on you guys. On our way to and back we observe sometimes many different marine life and also birds. This is a full day full of fun activity.

4. Fishing tackle and bait.
5. Fresh fruits.

** Lunch is not included in this tour. You can eat at Secret Beach or we can cook for you your catch of the day at a private sandy area on the beach. (An extra fee of \$35USD for all the cooking ingredients/stuff).

Description of tour

This full day tour starts at 7:30am at the main dock in Sarteneja. It's a boat ride of approximately 30 minutes to our bait spot. We look for sardines, bait for us to catch snappers and barracudas and sometimes jacks. After enough bait is caught we make our way to our first fishing spot. In this spot we normally cast our spinning reels for snappers. After some time we make our way to our second fishing spot which we normally fish for some huge barracudas. We also look for either jacks and/or cobias. All these 3 types of fish are caught while trolling. Once on hits the line you get in action as they give a very good fight. We also do some spinning reel for snappers also. Depending our catch, we move on to another fishing spot or to Secret Beach. At Secret Beach you can enjoy on various different mix drinks and also food. You pay for what you consume. Also there is a nice sandy area you can swim as you chill enjoying some drinks. If you want us to cook for you your catch of the day, we move on to a private area and we prepare your lunch. You can also enjoy of a nice area for you all to swim and also enjoy beers or rum punch (Belizean Happy Juice). A very amazing stop we do is at the Sandbar. This area is pretty much in between secret beach and Blackadore Caye, (Famous Leonardo DiCaprio's Island). This is a shallow white sandy area where you can just relax, as you enjoy nature and a beautiful sunset while enjoying an ice cold beer or rum punch. Once lunch is over and we hit 4:00pm, we can make our way back to Sarteneja. From this point to Sarteneja is roughly 1.5 hours. Time back home is up to you if you want to move a little earlier or a bit later, you know "Island time".
